**Many Contractors step up to the #8 Grade 60 Capacity.**

**DIAMOND®**

**DC-25X  
#8 Grade 60  
Rebar Cutter**

***"Unique features make this tool the very best"***

**Electrical Cord Strain Relief, Long-Life Cutting Blocks, Superior Forged Housing, Precision-Balanced Armature, Safety Pressure Relief Valve and Safety Cutting Guard.**

This portable heavy-duty rebar cutter will safely, efficiently, and cleanly cut rebar up to #8 (1") diameter grade 60 rebar. This self-contained electric/hydraulic unit will also cut other items like chain, bolts and rod but is specifically designed for rebar. The DC-25X cutter is ideal for a small fabrication shop, especially if used with our CWS-2025 WorkStation. Because our rebar cutters feature a locking trigger switch, the cutter can be operated with a foot pedal switch and our GFI protected electrical outlet. There are no sparks or flame so it also works great on epoxy-coated rebar. It's the fastest, safest, and most economical way to cut rebar on the job. The DC-25X rebar cutter ships complete in a steel carrying case with hydraulic oil and a tool kit. Backed by our no-nonsense one (1) year warranty.
